

# PhotoHog's On Location Portrait Session Hosting

*Try Something Different*

**Get four friends to sign up and your session and print option package is Free.**

*Great for family reunions, parties, or any type of group gatherings.*

It's simple. Find 4 friends or family groups that would like to sign up for an independent photo session on the same day as you, using the same location as you, and your session is free, (does not include the additional participant's fee). Same rules apply for each interested party as stated in the Family Portrait Session details. All session styles must be the same for every family group as the host, i.e. either an indoor studio setting or a natural light indoor / outdoor session. A schedule will be developed for each group in advance giving each group or individual their own session time. Each family group (excluding the host) will be required to pay a \$40.00 dollar non-refundable deposit to Photohog to get on the schedule for the day. All remaining session balances due 24 hours prior to the photo session day.

## **Family Portrait Session Details:**

Lasting one to two hours, this photo session includes several poses using different natural backgrounds provided by the location of your choice. Also included in the package price is your choice of one of the following print options in a glossy or luster finish:
